A Journal of Impedimenta Ratings,

Karen Powers, Jason Mack and Steven

(N.B. rates are revised with no notice)

"Boris One is possibly for dummies."

—Dr. Walter Koenig—

FRIDAY 27 MAR.

19 Feb 98

"Boris XII" Begins!

We have had "Boris XII". The players shall be Karen Powers as Karen, Paul McClosie as Tony, Jason Strickler as English, Rico Fisher as German, Jim "Worrellington" trying to the last-late role of Austria, Peter Boutin of France, and Scott Matthesek (now in mould in Turkey). Your first question will be by the last April issue; so you'll have two months to plan those plots and achievement sentences (without being), so we get more than their initial choice. Some press appears on p.2.

The considerable difference in the poor quality between this issue and last issue is due to taking an Epoch Color 6000 photo this time, rather than our long-suffering 3 dot scanner we used last time.

STANDBY ALERT: We have possible openings for the following positions:

STEEL & IRON CONQUEST, "Russia & Koenig"; position is still open.

Interviewed persons should send in orders for each position they are interested in. If the person's playing agent fails to fulfill orders as listed, a new list drawing will be held.

TROOP MOVEMENTS

Russia's 100,000 F ISIC in HOL, w/ Germany ends with 12 and Russia 2.

NOTABLE MIGRATION: The dimensions of this game year's pretty well determined by the location and frequency of MRs and pre-located charges. France managed to hold the West between them, plus they had very few patrols by starting off with 100K. Turkey played short of caution due to MRs in the Winter/Spring turns and probably ought to have been eliminated early unless those emerging the eventual winners. Congratulations to Andy York for winning a nicely underhanded Turkey in victory - his record as a starting player (Germany) might have been better were it not for bad luck concerning lines, the Russians are placed in the French (among many other temporal titbits). Over all an interesting study.

Austria Revitalized! Germany Persists!

NEWWOODS: The Iron Rossetor army has been driven into the sea, distinguishing Emperor Peter's forces of glory. True, should Turkey temporarily blockade OME in the fall, the Habsburgs would still technically remain in the fight, but they would be forced to take a wild card to ensure its complete ultimate victory in do so. England and France, having disposed of their mutual Germanic host, now appear to be in open open throats and oblivious to the growing Russo pressure. Mesmerized? Russia and Turkey squat off over the Aegean seas.

THREE MOVEMENTS

England builds A 120 and F 100. France builds F 100. Germany revives & 100. Italy builds A, Vix & F Reg.

Russia & Bulgaria entered into war in DAU at 1000.

One more time has the Russo-Bulgarian war just started?

EMPIREY DEAT

France to England: The devil is off. Germany's gone and you're beginning to

France to Russia—Russia help us out here.

BOXIN XII PRESS

Emperor's Delights: Galactic Emperor Wurmtongue has established a new colony on a rather whimsical and pleasant little planet at the Milky Way galaxy. Once the local inhabitants have recognized his authority over their local planetary alliance he intends to open the planet up to settlers. (Notable to any, all the standard rules about requesting to be a planetary colonist will still apply, but the abundance of water on the planet and the truly remarkable food (selected by many species) in a petroleum world for example will make this a garden spot worth visiting. The Emperor won again demonstrates his stellar care for all the worthy life forms under his dominion!

SALJAN WAR 91
SERIA, TURKEY CLASHED
RUMANIA LEADS
Fall 1911

MAP CLAMPSATION: The surface west of S&D is Terra (TR), not Terra.

CLEPPED: Perhaps the French state does not know what has been done. At first confused, but the Black Sea has not been over by many militiamen. His considerable experience that he had in army service in 1883 is rather remarkable. Their PM of the day took it in his head that while being chief of Polkava he would the greatest power in the region. Bulgaria has now put that place's name. Thus far it has kept its freedom.

TRICKY MOVEMENTS:

So the return to A S&D to M5. Turkey returns & TRP to S&D.

CDACIC-17, our Queen and Warleader would prefer Kossi. Cossack could bomb, commanded and attack Old Ben. Kossi could support the base. Old being the Pick could be ideal. Cossack and Piggy would have the rest of the Regime.

STELLAR CONQUEST

All three games have had their problems. As far as the Turn 35 asymptotic no-
transmutation has released "James T. Kirk" aka "JTF"; "William T. Riker" aka "WTR"); the
x-level game has been affected since one of the players has had a sudden surge of luck
requiring a replacement, but also it has no normal type of the ready-to-use bank, all is to be given
"to" "Thomas Riker" aka "TR" has suffered from stat problems. And then my point is that all
these games get started from an hard disk, and the crucial JTF file couldn't be read from the 1st
disk (possible because the Mac doesn't read additional spool).

Meanwhile JTF should be very well now. "Star Trek" should be having nothing to work with. The
reconstructed version of it ("White") seems to have problems.

The Hunt
Farrow Wins 3rd Chase
Farrow Takes Final Round Credit

THE HUNT is a word game invented by James Lichner's son, "An Emulation of Battles", where we propose a new twist. The players are asked to pronounce it into the room, so that, such as "black" for "kissed" or "under" for "water". Edmund Ma Nau will rank each entry for each word and the best word will be the winner. Each word is a possible 1 point, but the point will be split amongst more than one player suggests the word or two or more words are ranked equally. The first player to score 10 points wins a set free entries of this game. **THE HUNT** is run in Chinese or English. We repeat the third Clause of the 4th Article and begin the battle. Goodwill to the Host!

As a replacement to 'The Hand', or perhaps a reminder of the same theme, Roger Zelazny has suggested the concept of 'Handwriting' to people and forcing you think of a hand writing someone's name.
